

Bus Drag Race

Supplies Needed: 1 bus/driver, 1 tug-o-war rope (100 ft.), four marker cones (if the church does not have a bus, a van can be substituted)

Game Set-Up: Tie the tug-o-war rope on to the front of the bus, set up two cones by each side of the front of the bus (starting line), set up two cones 100 ft. from the starting line

Game: Have one team line up along and hold the tug-o-war rope. At the start of the whistle and the stopwatch, the team pulls ["drags"] the bus from the starting line until the back of the bus has crossed over the finish line. **VERY IMPORTANT:** *The bus needs to be running so that the brakes will work properly. The bus driver will steer the bus while it is in neutral. One evangelist walks along side of the bus to alert the driver of any safety concerns. The teens may not grab the rope within 20 feet of the front of the bus.* Then, the other team does the same thing. The winning team is the team who pulls the bus over the finish line in the fastest time.
